HORSE-RAISING.

An Industry Which, at Present, Offen Better Advantages Than Cattle or Hop

The prospect for making money by keeping cattle on the open range and ranch is not as good as it was a few years ago. The best locations have seen secured, and with rare exceptions the natural supplies of water are con-Territories there are combinations among the ranchmen who have been on the ground for several years that place all the difficulties they convent ently can in the way of new-comera ently can in the way of new-comera They have large capital, and are able to exert a powerful political influence. They can obtain breeding stock to better advantage than men who are seeking to establish themselves, and seeking to establish themselves, and can secure more favorable terms for transportation. They have prospered as few persons have who have been engaged in any department of stock-raising. Many of them will continue to make money, as they have experience, capital and facilities that are now difficult to secure. According to the reports of several ranch and range companies made at the close of last year the profits on the capital invested were small. A comparatively high price was paid for young cattle, while beeves sold at low figures. The action of the National Government in relation to grazing lands Government in relation to grazing lands in Indian Territory and the erection of wire fences on public lands has been unfavorable to the interests of many

ranchmen.

Hog-raising is less profitable than it has been at any time since the beginning of the civil war. The price of all pork products is very low. Our pork is excluded from several countries where excluded from several countries where oxcluded from several countries where it was once extensively sold. The pe-riodic alarms about trichina in this country as well as in foreign countries have caused many people, especially in large towns, to abandon the use of pork. The swips disease popularly known as The swine disease popularly known as hogeholera has made the business of hog cholera has made the business of producing pork very hazardous. There is more risk from disease in keeping hogs than in keeping any other kind of domesticated animals. Feeders who keep hogs in connection with eattle they are butchering for the market derive the most profit from them. The pork they produce is a clear gain. Very few extensive stock-raisers now feed corn or other grains directly to hogs. The outlook for large gains in keeping sheep is very poor. Wool and onlinary mutton are both very low. While many are not inclined to sacrifice their flocks of sheep, few desire to increase them. Some find that there is profit in supplying the local market with muttou; others wish mutton for their own tables.

plying the local market with mutton; others wish mutton for their own tables, and a few keep sheep for the purpose of keeping up the fertility of their land. All sheep-raisers are hopeful of a favorable turn in their business.

The prospects for making money in breeding and raising horses and mules were never better than they are now. Horses of all descriptions command good prices. As wealth increases in large cities there is an increasing demand for horses that will make fast time on the race-course, for fine carriage horses and for riding horses. The demand for heavy draft horses for use on drays and transfer-wag-ons was never better. The demand for middle-weight horses is also good. The increase of street car lines in all large towns calls street car lines in all large towns calls for a large number of horses suitable for drawing ears. Street railways make a demand for more horses than ordinary railways over displaced. The de-velopment of Dakota and the western provinces of Canada has created a demand for horses in the Northwest. They are wanted not only for ordinary mand for horses in the Northwest. They are wanted not only for ordinary farm work, but for drawing stages and doing general teaming. These parts of the coatinent will require more horses than they can produce during the next twenty years. The first settlers of any new country can not engage in horse-breeding very extensively. They have not the capital to purchase breeding stock, to creet stables, and to enable them to wait till animals grow to a size that they can be put to work. They find it to their advantage to raise cattle and hogs for several years after they have settled on their places.

Although the demand for mules in the States north of Missouri is small, owing to a foolish prejudice against them, the demand for them in the South is as good as ever and promises to continue. Raising mules for the Southern market is a profitable business for all who are so situated that they can engage in it. Missouri, Kansas, Nebraska and Iowa are well situated for breeding and raising mules. The climate is favorable, while grass, corn and oats are leading crops. St. Louis is the larcest mule market in the

The climate is favorable, while grass, corn and oats are leading crops. St. Louis is the largest mule market in the world, and it is easily reached by railway or river communication by parties living in any of these States. Extensive buildings for protection are not so essential for mules as for horses. Shelters for mules can be made of very cheap materials. The mule is a hardy creature and will stand exposure that will greatly injure a horse. Mares suitable for raising mule colts can be obtained from Oregon or the Western Territories at comparatively low prices, and good jacks can be bought in Missouri and the States further south. Parties proposing to engage in the souri and the States further south. Parties proposing to engage in the business require considerable capital, as there will be no returns for at least two years. After that time a "erop" of mules can be sold every year, and the expenditure of labor and money will be small.

The raising of horses and mules can be carried on in connection with grain-raising and general farming in most of the Western States and Territories to excellent advantage. Most of the plowing is done in the fall, and the mares that are expected to drop colts in the spring can do this work. The mole or horse colts will be of a size to be sepa-rated from their dams before it is time rated from their dams before it is time to commence cutting grass for hay or harvesting grain. The mares that have dropped colts in the spring can draw the mower and reaper in the summor and early fall, and can plow the land for another crop later in the season. By judicious management the mares can be made to do work enough to pay for their keep, so that their colts will be a net gain. All the food for the mares and their progeny can be raised on the place, and there will be no money outlay, except for male animals money outlay, except for male animals and buildings for shelter. At present

ALL COMERS.

Summer Necessities in every kind of

Fancy and taple Dry Goods, Clothing, Etc. At figures that discount all Bankrupt and shelf-worn stocks and so-called cheap store prices and all this in

New, Fresh, Clean and Desirable Goods.

We take this method of extending our sincere thanks to our many friends and customers, for the liberal patronage bestowed upon us for the past 26 years. We have, since our establishment in this city in 1860, tried our utmost to gain the confidence of the people, by giving them

Good, Honest, Serviceable Goods

for LESS MONEY than they could be bought elsewhere, and by making plain and true statements and representations in offering these goods.

It needs no explanation from us to show how our goods and prices have een appreciated. Our business has continually improved; our customers have grown more, year by year, consequently we have been forced to carry

Dry Goods, Clothing, Boots, Shoes, Hats, Furnishing Goods, TRUNKS AND VALISES

-in Hopkinsville. Our two Store Rooms,-

NOS. 13 AND 15 SOUTH MAIN STREET goods, but sell you good, durable goods. We carry no shoddy or trashy trashy goods. We have often been asked, "Why don't you handle common goods?" Our maswer is invariably that we find it are packed with the above mentioned goods. We carry no shoddy or trashy Our answer is invariably that we find it pays to handle nothing but first-class goods, and when people want good goods they come to us, and if they try them once they never fail to try them again; while on the other hand should we sell a customer an inferior article we would not be very apt to see him again. It is our aim to gain customers and retain them. Our calculation is to sell often at a small margin, which is more profitable than selling a customer once at large margin and not selling him again.

We offer this month, (June) only,

our entire stock at such Low Prices that you will be astonished.

We will not endeavor to quote prices for our competitors to copy after,

Mammoth Store Rooms.

Where you can see the goods, examine them closely and see for yourself

GREAT BARGAINS. We will not offer you as an inducement, a few Calicoes, Domestics, Lawns, &c., at cost, but every article in our house will go far below its

—A prosperous farmer of Owingsville, Ky., a well-preserved widower of over fifty, has two sons, who
were both in love with the same girl.
She found difficulty in deciding which
to take, and the old man solved the
problem by sending the boys off on
business and marrying the girl himself
while they were away.—Louisville Courier-Journal.

-Frank Carpenter, who was a Lieu-tenant in the Eighth Vermont regiment, cherishes carefully copies of the Rich-mond Inquirer of 1864. He was then a prisoner in Libby prison, and was a subscriber to the *Inquirer*, paying twenty dollars for a three months' subscription. He paid six dollars for the insertion of a personal, which was copied in New York and led to his re-

-A Pittsfield (Mass.) man has sequired several thousand dollars with his buck-saw. He is intelligent and liberal, recently gave one hundred and liberal, recently gave one hundred dollars in a lump to a public enter-prise, has represented the town in the Legislature, is an active politician and, although more than sixty years old, sawed nearly three hundred cords of wood during the last year.—Boston

—The underground railway in Brook-lyn is estimated to cost five million dollars. A speed of thirty-five miles an hour is promised. The fare will be an hour is promised. The fare will be five cents over the whole road. It will take a person twenty minutes to go a distance which now occupies two hours in passing over. The road will have an average depth of twenty-two feet. The roof of the tunnel will be white porcelain brick, which will reflect the light of the electric lamps.—Brooklyn Eagle.

Practical education: A college student at Easton, Pa., promptly nipped a hazing party in the bud by unlimbering his pocket battery and shooting the door panels full of holes that about the time the committee on shooting the door panels full of holes just about the time the committee on the powers of the Senate were demanding his papers. This shows how thoroughly is that young man prepared for college life who learns how to shoot while attending the grammar school of his native village. Don't leave every thing to be learned in college, young man.—Bardette.

-Henry K. Brown, the sculptor, who lives at Newburgh, has been adjudged of unsound mind and a committee will be appointed to take charge of his affairs. Mr. Brown is now in his seventy-second year and has been in feeble health for a long time, but his mental failure dates from the death of his wife, a few years are to whom he mental failure dates from the death of his wife, a few years ago, to whom he was devotedly attached. He is one of the most justly honored of American sculptors, and his statue of Washington in Union Square, New York, is still the best equestrian figure that has been made in America.—N. Y. Times.

been made in America.—N. Y. Times.

—No, young man, no, you do not "have to know very much about cards to play progressive cuchre." In fact, the less you know about anything the more you'll play cards. The most expert card player and most successful gambler we ever knew was a man in Denver who spelled God with a little g and two d's, swore every time he said anything, lied every time he swore, and could be safely trusted to steal anything he could hide in his hands. Card playing may require high culture and refined training, but somehow the lives of the best experts do not seem to indicate this.—Burdette.

—At a theatrical entertainment a

maids, which they as equally hate being instrumental in reproducing on albumen paper, taking dogs pays, and therefore they mange to stand it."

The frown upon the operator's brow gave place to a quiszing smile as a happy thought came into his head, was taking place, the young lady, with a sweet smile, removed her hat and placed it in her lap. The newspaper man was profuse in his expressions of thanks. The next day he caught a severe cold, contracted the pneumonin and died a week later. When his will was read it was discovered that he had added a codicil, giving the young lady and the contracted transposed to be survivors of a departed race of giants. A tree twenty-five feet in eirgonal contraction of the contracted transposed to be survivors of a departed race of giants. A tree twenty-five feet in eirgonal contraction of the contracted transposed to be survivors of a departed race of giants. His Speech in Washington After the Nom

ington has been misquoted. It was de livered from the front door of his resi dence, next the Unitarian Church, to ; noisy crowd who had assembled to re joice over the nomination of Genera Scott as the Whig candidate at Baltimore. Mr. Webster, who had expected that he would have received the nomination himself, betrayed no trace or

disappointment, but spoke in his deep, melodious voice, "whose every tone was music's own," saying:

"I thank you, fellow-citizens, for this friendly and respectful csll. I am very glad to see you. Some of you have been engaged in an arduous public duty at Baltimore, the object of your meeting being the selection of a fit permeeting being the selection of a fit per--The snort of the iron horse is heard meeting being the selection of a fit per son to be supported for the office of President of the United States. Others of you take an interest in the result of the deliberations of that assem-blage of Whigs. It so happened that my name, among others, was presented on the occasion; another can-didate, however, was preferred. I have only to say, gentlemen, that the convention did, I doubt not, what it thought best, and exercised its discretion in the best, and exercised its discretion in the important matter committed to it. The result has caused me no personal feeling whatever, nor any change of conduct or purpose. What I have been I am, in principle and character; and what I am I hope to continue to be. Circumstances or opponents may triumph over my fortunes, but they will not triumph over my fortunes, but they will not triumph over my temper or my self-

respect. "Gentlemen, this is a screne and beau "Gentlemen, this is a serene and beau-tiful night. Ten thousand the the lights of Heaven illuminate the firmament. They rule the night. A few hours hence their glory will be ex-

Ye stars that gi tter in the skies. And gayly dance before my eyes. What are ye when the sun shall rise?

"Gentlemen, there is not one among you who will sleep better to-night than I shall. If I wake I shall learn the hour from the manufacturers complete reports of the production of cut nails and spikes in 1885. The total production was 6,696,815 kegs of 100 pounds each, against 7,581,379 kegs in 1884 and 7,762,787 kegs in 1883. The product of 1883 was the largest ever attained.

—A young colored woman called upon a Lincolnton, (Ga.) judge recently, and asked for a marriage licently, and asked for a marriage licently. When the judge asked for the

The Smart Detroit Drammer Fails to Col-lect the Bet.

A traveler for a wholesale Detroit house was waiting in the depot at Pontiac the other day when a stranger approached him and asked: "Isn't your name Green, of Grand Rapids?

"No, sir." "Ah! beg your pardon, I never saw him but expected him here to meet me. Green is going to travel with a circus this year, and was to give me twenty-five dollars to post him up on some new

entches. "So you've got something new?"
queried the Detroiter.

give it away to me? I'm one of the boys, you know!"

"Certainly. The trick is to tell the date of any coin a man may have in his pockets without your looking at it."
"But you can't do that."
"O, yes, I can. Have you got any coins in your necket?" oins in your pocket?"
"Yes; twenty of them."

"Well; I can write down the date of each and every one of them."
"Say, I'll bet you ten dollars you can't!" exclaimed the drummer.
"Done!" said the other, as he pulled out a bill. A very respectable-looking man was

standing by, and the money was placed in his hands. "Now," said the sharper, "you turn your face to the wall and fold your arms. I will write down the date

compare them."

At the end of three minutes he had

Detroiter, as he rose up and looked. But he never did. The stakeholder had slid out, and the man with the trick was a bigger chap than he cared to tackle.—Detroit Free Press.

TO THE POINT.

How a San Francisco Photographer Hurt Young Lady's Feelings. In one of the popular photograp galleries, of which San Francisco has several, there is an operator at the camera who, not content with being an STUDY. hours and obtain a practical education. A1 artist with the lens, combines there

with the further attraction and recom mendation of being a "funny man." His jokes and sayings, though not always of the brightest order of wit. have become well known about town. and occasionally are worth repeating

and occasionally are worth repeating in print.

The other day a fashiouable young lady presented herself at the gallery, accompanied by her pet English png. "What style shall you desire, miss?" asked the photographic wit, advancing to meet her. "Carte de visite, cabinets, building and the property of the state of th

"O. I don't want my picture taken to-day, thank you." she replied. " only came to get a carte of my dog's head."

Now, if there is one thing more than another that photographers detest it is photographing dogs. But, like the weazened mugs of skinny and fussy old maids, which they as equally hate being instrumental in reproducing on albumon against taking dogs was and the effect.
